IDEA Diagnostic Form Report

To learn more, see the Interpretive Guide: www.theideacenter.org/diagnosticguide.pdf

Of the 18 students enrolled, 11 responded (61%). Feedback from individual classes is always useful to guide improvement efforts. Typically, multiple classes should be used for evaluation, using more classes when they are small (fewer than 10) or when they have low response rates (less than 60%) (see www.theideacenter.org/AdminDecisions).

Summary Evaluation of Teaching Effectiveness

Teaching effectiveness is assessed in two ways: **A. Progress on Relevant Objectives**, a weighted average of student ratings of the progress they reported on objectives selected as "Important" or "Essential" (double weighted) and **B. Overall Ratings**, the average student agreement with statements that the teacher and the course were excellent. The **SUMMARY EVALUATION** is the average of these two measures. Individual institutions may prefer to combine these measures in some other manner to arrive at a summary judgment.

Converted Averages are standardized scores that take into account the fact that the average ratings for items on the IDEA form are not equal; students report more progress on some objectives than on others. Converted scores all have the same average (50) and the same variability (a standard deviation of 10); about 40% of them will be between 45 and 55. Because measures are not perfectly reliable, it is best to regard the "true score" as lying within plus or minus 3 of the reported score.

For comparative purposes, use converted averages. Your converted averages are compared with those from all classes in the IDEA database. If enough classes are available, comparisons are also made with classes in the same broad *discipline* as this class and/or with all classes that used IDEA at your *institution*. The *Interpretive Guide* offers some suggestions for using comparative results; **some institutions may prefer to establish their own "standards" based on raw or adjusted scores rather than on comparative standing.**

Both unadjusted (raw) and adjusted averages are reported. The latter makes classes more comparable by considering factors that influence student ratings, yet are beyond the instructor's control. Scores are adjusted to take into account student desire to take the course regardless of who taught it (item 39), student work habits (item 43), instructor reported class size, and two multiple item measures (student effort not attributable to the instructor and course difficulty not attributable to the instructor).

Your Average Scores

	Your Average (5-point scale)	
	Raw	Adj.
A. Progress on Relevant Objectives¹ Eleven objectives were selected as relevant (Important or Essential –see page 2)	4.1	3.7
Overall Ratings		
B. Excellent Teacher	5.0	4.7
C. Excellent Course	4.6	4.2
D. Average of B & C	4.8	4.5
Summary Evaluation (Average of A & D)¹	4.4	4.1

¹ If you are comparing Progress on Relevant Objectives from one instructor to another, use the converted average.

² The process for computing Progress on Relevant Objectives for the Discipline and Institution was modified on May 1, 2006. Do not compare these results with reports generated prior to this date.

Student Ratings of Learning on Relevant (Important and Essential) Objectives

Average unadjusted (raw) and adjusted progress ratings are shown below for those objectives you identified as "Important" or "Essential." **Progress on Relevant Objectives** (also shown on page 1) is a weighted average of student ratings of the progress they reported on objectives selected as "Important" or "Essential" (double weighted). The percent of students rating each as "1" or "2" (either "no" or "slight" progress) and as "4" or "5" ("substantial" or "exceptional" progress) is also reported. These results should help you identify objectives where improvement efforts might best be focused. Page 3 contains suggestions about the types of changes you might consider to obtain more satisfactory results. Also, refer to the **POD–IDEA Center Learning Notes** (www.theideacenter.org/podidea/PODNotesLearning.html).

	Importance Rating	Your Average (5-point scale)		Percent of Students Rating	
		Raw	Adj.	1 or 2	4 or 5
21. Gaining factual knowledge (terminology, classifications, methods, trends)	Essential	4.5	4.2	0%	100%
22. Learning fundamental principles, generalizations, or theories	Essential	4.3	3.9	0%	100%
23. Learning to <i>apply</i> course material (to improve thinking, problem solving, and decisions)	Essential	4.6	4.2	0%	91%
24. Developing specific skills, competencies, and points of view needed by professionals in the field most closely related to this course	Essential	4.5	4.1	0%	100%
25. Acquiring skills in working with others as a member of a team	Minor/None				
26. Developing creative capacities (writing, inventing, designing, performing in art, music, drama, etc.)	Important	4.4	4.0	0%	91%
27. Gaining a broader understanding and appreciation of intellectual/cultural activity (music, science, literature, etc.)	Essential	3.6	3.0	9%	55%
28. Developing skill in expressing myself orally or in writing	Essential	3.8	3.4	18%	73%
29. Learning how to find and use resources for answering questions or solving problems	Essential	3.8	3.3	9%	73%
30. Developing a clearer understanding of, and commitment to, personal values	Essential	3.7	3.2	18%	64%
31. Learning to <i>analyze</i> and <i>critically evaluate</i> ideas, arguments, and points of view	Essential	3.5	3.0	18%	45%
32. Acquiring an interest in learning more by asking my own questions and seeking answers	Essential	4.5	4.1	0%	100%
Progress on Relevant Objectives		4.1	3.7		

¹ The process for computing Progress on Relevant Objectives for the Discipline and Institution was modified on May 1, 2006. Do not compare these results with reports generated prior to this date.

 Much Lower = Lowest 10% (37 or lower)

Description of Course and Students

Students described the course by rating three items related to "level of academic challenge." Results cannot be interpreted as "good" or "bad"; in general, these ratings have a slight positive relationship with measures of academic achievement. The three items describing your students relate to their academic motivation and work habits and are key factors in developing adjusted ratings.

Course Description	Your Average (5-point scale)
33. Amount of reading	2.0
34. Amount of work in other (non-reading) assignments	3.9
35. Difficulty of subject matter	3.3

Student Description

37. I worked harder on this course than on most courses I have taken.	3.9
39. I really wanted to take this course regardless of who taught it.	4.0
43. As a rule, I put forth more effort than other students on academic work.	4.2

Your Converted Average When Compared to Group Averages					
IDEA Database		IDEA Discipline		Your Institution	
34	Much Lower	35	Much Lower	36	Much Lower
58	Higher	56	Higher	56	Higher
47	Similar	49	Similar	48	Similar

56	Higher	54	Similar	54	Similar
62	Higher	60	Higher	58	Higher
68	Much Higher	59	Higher	61	Higher

Much Higher = Highest 10% of classes (63 or higher)
 Higher = Next 20% (56–62)
 Similar = Middle 40% (45–55)
 Lower = Next 20% (38–44)
 Much Lower = Lowest 10% (37 or lower)

Improving Teaching Effectiveness

One way to improve teaching effectiveness is to make more use of the teaching methods closely related to learning on specific objectives.

- Review [page 2](#) to identify the objective(s) where improvements are most desirable.
- Use the first column to answer the question, "Which of the 20 teaching methods are most related to learning on these objective(s)?"
- Review the next two columns to answer the question, "How did students rate my use of these important methods?"
- Read the last column to answer the question, "What changes should I consider in my teaching methods?"
- Beyond specific methods, do the results suggest a general area (e.g., Stimulating Student Interest) where improvement efforts should be focused?

Suggested Actions are based on comparisons with ratings for classes of similar size and level of student motivation. **Consider increasing use** means you employed the method less frequently than those teaching similar classes. **Retain current use or consider increasing** means you employed the method with typical frequency. **Strength to retain** means you employed the method more frequently than those teaching similar classes. More detailed suggestions are in the **Interpretive Guide** (www.theideacenter.org/diagnosticguide.pdf), **POD-IDEA Center Notes** (www.theideacenter.org/podidea), and **POD-IDEA Center Learning Notes** (www.theideacenter.org/podidea/PODNotesLearning.html).

Teaching Methods and Styles

	Relevant to Objectives: (see page 2)	Your Average (5-point scale)	Percent of Students Rating 4 or 5	Suggested Action
Stimulating Student Interest				
8. Stimulated students to intellectual effort beyond that required by most courses	All selected objectives	4.6	100%	Strength to retain
13. Introduced stimulating ideas about the subject	All selected objectives	4.5	100%	Strength to retain
15. Inspired students to set and achieve goals which really challenged them	All selected objectives	4.2	91%	Strength to retain
4. Demonstrated the importance and significance of the subject matter	21, 22, 23, 24, 30, 32	4.7	100%	Strength to retain

Fostering Student Collaboration

18. Asked students to help each other understand ideas or concepts	26, 28, 29, 30, 31, 32	4.1	82%	Retain current use or consider increasing
16. Asked students to share ideas and experiences with others whose backgrounds and viewpoints differ from their own	26, 27, 28, 30, 31	4.2	91%	Strength to retain
5. Formed "teams" or "discussion groups" to facilitate learning	Not relevant to objectives selected	2.7	18%	

Establishing Rapport

2. Found ways to help students answer their own questions	All selected objectives	4.6	91%	Strength to retain
7. Explained the reasons for criticisms of students' academic performance	23, 24, 26, 27, 28, 29, 31, 32	4.5	82%	Strength to retain
1. Displayed a personal interest in students and their learning	23, 24, 28, 32	4.9	100%	Strength to retain
20. Encouraged student-faculty interaction outside of class (office visits, phone calls, e-mails, etc.)	29	4.6	100%	Strength to retain

Encouraging Student Involvement

19. Gave projects, tests, or assignments that required original or creative thinking	26, 27, 28, 29, 31	4.6	91%	Strength to retain
11. Related course material to real life situations	23, 24, 30	4.7	100%	Strength to retain
9. Encouraged students to use multiple resources (e.g. data banks, library holdings, outside experts) to improve understanding	29	4.6	100%	Strength to retain
14. Involved students in "hands on" projects such as research, case studies, or "real life" activities	29	4.6	91%	Strength to retain

Structuring Classroom Experiences

6. Made it clear how each topic fit into the course	21, 22, 23, 24, 27, 30, 32	4.7	100%	Strength to retain
10. Explained course material clearly and concisely	21, 22, 23, 24, 27	4.9	100%	Strength to retain
12. Gave tests, projects, etc. that covered the most important points of the course	21, 22	4.8	100%	Strength to retain
3. Scheduled course work (class activities, tests, projects) in ways which encouraged students to stay up-to-date in their work	Not relevant to objectives selected	4.6	91%	
17. Provided timely and frequent feedback on tests, reports, projects, etc. to help students improve	Not relevant to objectives selected	4.8	91%

Kelly Furans

MC 461

I really enjoyed this class.

Kelly is one of the best teachers I have had at K-state. He really is here to help the students.

Great teacher, fun class.

Very good teacher, replied to emails quickly and efficiently and tried his best to make the group do well. Enjoyed the class!!

This was generally a good course and I have really enjoyed taking it even though I was unsure at first. The instructor made it very enjoyable to learn and easy to understand.
