There were **17** students enrolled in the course and **14** students responded. Your results are considered only **marginally reliable**. The **82%** response rate indicates that results are **representative** of the class as a whole.

Summary Evaluation of Teaching Effectiveness

Teaching effectiveness is assessed in two ways: **A. Progress on Relevant Objectives**, a weighted average of student ratings of the progress they reported on objectives selected as "Important" or "Essential" (double weighted) and **B. Overall Ratings**, the average student agreement with statements that the teacher and the course were excellent. The **SUMMARY EVALUATION** is the average of these two measures. Individual institutions may prefer to combine these measures in some other manner to arrive at a summary judgment.

Converted Averages are standardized scores that take into account the fact that the average ratings for items on the IDEA form are not equal; students report more progress on some objectives than on others. Converted scores all have the same average (50) and the same variability (a standard deviation of 10); about 40% of them will be between 45 and 55. Because measures are not perfectly reliable, it is best to regard the "true score" as lying within plus or minus 3 of the reported score.

For comparative purposes, use converted averages. Your converted averages are compared with those from all classes in the IDEA database. If enough classes are available, comparisons are also made with classes in the same broad *discipline* as this class and/or with all classes that used IDEA at your *institution*. The *Interpretive Guide* offers some suggestions for using comparative results; **some institutions may prefer to establish their own "standards" based on raw or adjusted scores rather than on comparative standing.**

Both **unadjusted** (raw) and **adjusted** averages are reported. The latter makes classes more comparable by considering factors that influence student ratings, yet are beyond the instructor's control. Scores are adjusted to take into account student desire to take the course regardless of who taught it (item 39), student work habits (item 43), instructor reported class size, and two multiple item measures (student effort not attributable to the instructor and course difficulty not attributable to the instructor).

Student Ratings of Learning on Relevant (Important and Essential) Objectives

Average unadjusted (raw) and adjusted progress ratings are shown below for those objectives you identified as "Important" or "Essential." **Progress on Relevant Objectives** (also shown on page 1) is a weighted average of student ratings of the progress they reported on objectives selected as "Important" or "Essential" (double weighted). The percent of students rating each as "1" or "2" (either "no" or "slight" progress) and as "4" or "5" ("substantial" or "exceptional" progress) is also reported. These results should help you identify objectives where improvement efforts might best be focused. Page 3 contains suggestions about the types of changes you might consider to obtain more satisfactory results. Also, refer to the **POD-IDEA Center Learning Notes** (www.theideacenter.org/podidea/PODNotesLearning.html).

Description of Course and Students

Students described the course by rating three items related to "level of academic challenge." Results cannot be interpreted as "good" or "bad"; in general, these ratings have a slight positive relationship with measures of academic achievement. The three items describing your students relate to their academic motivation and work habits and are key factors in developing adjusted ratings.

Course Description	Your Average (5-point scale)
33. Amount of reading	2.9
34. Amount of work in other (non-reading) assignments	3.6
35. Difficulty of subject matter	3.1

Student Description

37. I worked harder on this course than on most courses I have taken.	3.9
39. I really wanted to take this course regardless of who taught it.	3.5
43. As a rule, I put forth more effort than other students on academic work.	4.1

Improving Teaching Effectiveness

One way to improve teaching effectiveness is to make more use of the teaching methods closely related to learning on specific objectives.

- Review [page 2](#) to identify the objective(s) where improvements are most desirable.
- Use the first column to answer the question, "Which of the 20 teaching methods are most related to learning on these objective(s)?"
- Review the next two columns to answer the question, "How did students rate my use of these important methods?"
- Read the last column to answer the question, "What changes should I consider in my teaching methods?"
- Beyond specific methods, do the results suggest a general area (e.g., Stimulating Student Interest) where improvement efforts should be focused?

Suggested Actions are based on comparisons with ratings for classes of similar size and level of student motivation. **Consider increasing use** means you employed the method less frequently than those teaching similar classes. **Retain current use or consider increasing** means you employed the method with typical frequency.

Strength to retain means you employed the method more frequently than those teaching similar classes. More detailed suggestions are in the [Interpretive Guide \(www.theideacenter.org/diagnosticguide.pdf\)](http://www.theideacenter.org/diagnosticguide.pdf), [POD-IDEA Center Notes \(www.theideacenter.org/podidea\)](http://www.theideacenter.org/podidea), and [POD-IDEA Center Learning Notes \(www.theideacenter.org/podidea/PODNotesLearning.html\)](http://www.theideacenter.org/podidea/PODNotesLearning.html).

Fostering Student Collaboration

18. Asked students to help each other understand ideas or concepts	25, 26, 28, 29, 30, 31, 32	4.6	93%	Strength to retain
16. Asked students to share ideas and experiences with others whose backgrounds and viewpoints differ from their own	25, 26, 28, 30, 31	4.5	86%	Strength to retain
5. Formed "teams" or "discussion groups" to facilitate learning	25	4.1	79%	Strength to retain

Establishing Rapport

2. Found ways to help students answer their own questions	All selected objectives	4.6	86%	Strength to retain
7. Explained the reasons for criticisms of students' academic performance	23, 24, 26, 28, 29, 31, 32	4.9	100%	Strength to retain
1. Displayed a personal interest in students and their learning	23, 24, 28, 32	4.9	100%	Strength to retain
20. Encouraged student-faculty interaction outside of class (office visits, phone calls, e-mails, etc.)	29	4.9	100%	Strength to retain

Encouraging Student Involvement

19. Gave projects, tests, or assignments that required original or creative thinking	25, 26, 28, 29, 31	4.9	100%	Strength to retain
11. Related course material to real life situations	23, 24, 30	4.9	100%	Strength to retain
14. Involved students in "hands on" projects such as research, case studies, or "real life" activities	25, 29	4.9	100%	Strength to retain
9. Encouraged students to use multiple resources (e.g. data banks, library holdings, outside experts) to improve understanding	29	4.9	100%	Strength to retain

Structuring Classroom Experiences

6. Made it clear how each topic fit into the course	21, 22, 23, 24, 30, 32	4.6	86%	Strength to retain
10. Explained course material clearly and concisely	21, 22, 23, 24	4.9	100%	Strength to retain
12. Gave tests, projects, etc. that covered the most important points of the course	21, 22	4.9	100%	Strength to retain
3. Scheduled course work (class activities, tests, projects) in ways which encouraged students to stay up-to-date in their work	Not relevant to objectives selected	4.8	93%	
17. Provided timely and frequent feedback on tests, reports, projects, etc. to help students improve	Not relevant to objectives selected	4.9	100%

Thank you Kelly!

Overall, great teacher!

Really liked individual conferences.

Made me excited about my major. Excellent teacher, helped out a lot outside of the classroom, very available.

Awesome class. Completely solidified my decision to take journalism classes/minor at KSU. I need to read the news more because the quizzes on current events killed me. Love the feedback we get on our stories & that we get a chance to change errors on all stories.

I thought that this teacher was really nice and good at explaining things.
