## **TEACHING EVALUATIONS FALL SEMESTER 2021**

Attached is the report for your Fall 2021 course. The report reflects the policy and procedures published in the Faculty Handbook, Section II-8, pages 13-15.

### **Presentation of Data**

This report provides the average values of all individual questions, including any items supplied by the instructor (items 1.14-1.18). The top of page one shows a legend to help you interpret your data. There is no single overall summary of the individual items.

The second part of this report contains a histogram which faculty requested to help visualize results. The third section contains a profile of responses for the course. And finally, the report reproduces the written comments provided by students.

### **Maintenance of Data**

Student feedback for Fall courses is uploaded to eDocs and maintained in a faculty member's personnel file in the Provost's Office.

### **Use of Data**

While we are pleased to present these reports on how your students perceived your course, you will want to remember that the Faculty Handbook language says ..."evaluation of faculty members' overall teaching effectiveness should always be considered in relation to at least one other form of teaching evaluation including teaching portfolios, peer evaluations, and other devices." For help in developing additional methods to evaluate your teaching, contact the Center for the Advancement of Teaching and Learning.

Sincerely,

The Office of the Provost and Academic Affairs

## Comments Report

**3. PART 3: INSTRUCTIONS: Your constructive feedback on the following items is appreciated. If your instructor added an item for 3.3, please respond to that item also.**

3.1) Comment on aspects of the instructor's teaching style that helped the learning process.

- I enjoyed that we were able to code along side you. I think it was really great to code hands on rather than listen to a lecture on how to code. Also your enthusiasm about the subject was so seen and really made me want to come to class and learn more. It was very rewarding.
- I liked how we could follow along with the coding and how there was a healthy balance between actually coding and lecture. In addition, having a teacher that would stop and answer questions and helping you solve the problem before moving helped a lot in keeping everyone on the same page.
- One of my favorite and best teachers at Elon! Makes learning fun and interesting!
- Professor Furnas is a very caring teacher. His value for students shines through in his teaching style, he stops to address any issues that individuals have and it is so greatly appreciated by everyone in the class.
- Professor Furnas is extremely helpful and I always feel comfortable asking questions in class.
- THE BEST!! Genuinely so invested in helping us learn. He provides a clear outline/rubric for any assignments, and makes sure we are well prepared for quizzes. I knew nothing about coding going into this class, and I can confidently say that this is the most I've ever learned in a class. Top 3 professors I've ever had at Elon.
- Watching Professor Furnas code along with us really helped me understand the basic knowledge.

3.2) Comment on aspects of the instructor's teaching style that could be improved upon to help the learning process.

- I honestly cannot think of anything Prof Furnas needs to improve upon from my point of view, however, I have heard people comment on how fast the class moves, but it is a non issue because of his availability in and out of class.
- I honestly think you do such a great job with class I don't have much else to say.
- I think probably just a bit more explanation on what each coding function does once you get to the more complicated parts of the coding process. Either that be through a presentation where it's just each slide is a definition of what each thing does.
- N/A
- Nothing, I think the class is great.
