

TEACHING EVALUATIONS FALL SEMESTER 2018

Attached is the report for your Fall 2018 course. The report reflects the policy and procedures published in the Faculty Handbook, Section II-8, pages 13-15.

Presentation of Data

This report provides the average values of all individual questions, including any items supplied by the instructor (items 1.14-1.18). The top of page one shows a legend to help you interpret your data. There is no single overall summary of the individual items.

The second part of this report contains a histogram which faculty requested to help visualize results. The third section contains a profile of responses for the course. And finally, the report reproduces the written comments provided by students.

Maintenance of Data

Student feedback for Fall courses is uploaded to Fortis and maintained in a faculty member's personnel file in the Provost's Office.

The completed paper forms for the Students' Perception of Teaching responses will be available for pick-up in Alamance 118 until the end of February 2019. At that time the paper forms will be shredded. Please make plans to pick up your evaluations by that date.

Use of Data

While we are pleased to present these reports on how your students perceived your course, you will want to remember that the Faculty Handbook language says ..."evaluation of faculty members' overall teaching effectiveness should always be considered in relation to at least one other form of teaching evaluation including teaching portfolios, peer evaluations, and other devices." For help in developing additional methods to evaluate your teaching, contact the Center for the Advancement of Teaching and Learning.

Sincerely,

The Office of the Provost and Academic Affairs

Kelly Furnas

Comments Report

1. Questions:

1.28) As a result of Elon 101, I learned:

how to figure out class signups, my degree audit, social norms,
Major information

How to register for classes and where
to go when I need help.

How to use Elon's resources in a way that would benefit me
in the long run.

The basic navigations around Elon

How to successfully graduate, what resources are on campus.

How to access the resources Elon offers.

how to sign up for classes / what to prioritize

what I need to do to graduate, and the opportunities available to
me through Elon.

The values of this university

How the school works, how to better myself as an Elon student

about courses offered, Greek life, clubs, study abroad, meal plans, residence life and more!

practically everything necessary for a first-year student.

1.29) As a result of creating my Elon plan, I learned:

What kind of path I want to go down.

What my major meant for me post graduation

What classes I needed to take & which ones I already got credit for.

about the classes I need to take for my major

How to graduate in time.

Registering for classes is complicated.

What types of classes I need to take

What I need to do to graduate and the tools that can help me.

that things will/can change over time

well it gave me relief as I feel more confident in my plan here.

about requirements for my major and minor

what I need to do to get to where I want to be

1.30) What was your most meaningful Elon 101 experience?

Perhaps the rope course

adventure course

Getting to know my classmates before class even began.

Connecting with Professor Furnas. He's a great man and hope we still keep in touch

Whenever we would get out of the classroom to learn.

Having the different departments meet with us 1 on 1.

Travel Abroad / Study Abroad

Grad Plan

Individual meetings w/ advisors

The Team Building rope course

taking the ropes course with my class

~~and~~ meetings w/ Kelly & Jordan

1.31) What were the strengths of your Elon 101 class?

Good community, excellent TA and advisor

accepting, lots of participation

We covered all the necessities.

~~Offering~~ First year students guidance about Elon.

Different teaching methods, many resources.

We felt comfortable with each other.

TA/teacher were good

good activities

a chance to meet new people

we were very comfortable around each other and
very accepting

how kind everyone was (especially our teachers)

laidback and not stressful

1.32) What were the weaknesses of your Elon 101 class?

~~My opinion~~ Not many if at all

not everyone showed up to most classes

There were none.

Some of the classes seemed unrelated

I feel like the class could have bonded more.

I think we should have focused more on what
is necessary to get done (Grad Plan)

the creation of a
Grad Plan

I don't think there were that many

nothing

none

1.33) If you could change Elon 101, what would you change and why?

It wasn't an expansive and incredibly helpful class, however I believe the class accomplished exactly what it was meant to, so in that regard, I wouldn't change anything.

I would make the course year long or even 4 years long because it offered support I needed.

I would maybe just add more fun activities to the beginning of the semester.

I would have more in-class classes.

I really liked my Elon 101 class.

Ropes course was unnecessary

I did not think that the outdoor
team building activities were necessary

wouldn't change it.

nothing

nothing

1.34) Additional comments:

It is a good thing that this class didn't spell everything out for us. I think that Elon provides us more than enough resources, and I was very satisfied with Elon 101.

Had a great Elon 101 experience, thank you!

awesome class!
