Comments Report

3. PART 3: INSTRUCTIONS: Your constructive feedback on the following items is appreciated. If your instructor added an item for 3.3, please respond to that item also.

3.1) Comment on aspects of the instructor's teaching style that helped the learning process.

- All the lessons in this class were organized and well thought-out. Professor Furnas is super knowledgeable on all the topics he taught us. He made everything easy to understand and if anyone was ever confused or needed him to go over something he gladly did. He also does such a great job of connecting the material to how we will use it in future communication jobs. I enjoyed this class so much because he made everything understandable. Last semester for com220, I had a professor who made everything feel so difficult and I lost hope in ever learning Adobe suites. Professor Furnas really was great at teaching Indesign. I would recommend this class and any of Professor Furnas classes to anyone! The Elon Communications school is lucky to have him.
- He's an overall fantastic professor with a great teaching style
- Instructor did a good job of dividing the class in half, so it didn't feel like three hours of learning.
- It is clear that Professor Furnas knows the material very well, which makes it easier for his students to learn at such a fast pace. Professor Furnas is honestly in my top 3 favorite professors at Elon, and I love how he works so hard to make his classroom a place for mutual respect and learning.
- N/A
- Professor Furnas' knowledge and passion for the subjects taught greatly helps my learning process. He makes me want to learn more and makes sure I understand the most important parts of the communications industry.
- The teaching style very much helps my learning process as classes are organized, lectures and notes are extensive and helpful and class discussions are engaging.
- very organized

3.2) Comment on aspects of the instructor's teaching style that could be improved upon to help the learning process.

- I know this is the nature of J-term, but sometimes the lectures get so speedy I end up missing things while trying to write everything down. If there was a way to upload the lecture powerpoints to Moodle, that would be extremely helpful. Especially since I've had to miss class because of COVID!
- I think more creative assignments would help me with the enjoyment of this class. Rather than recreating things in class to learn, let us create our own material, like in the coding class.
